

Agricultural tunnels designed to offer versatile storage and protection solutions in rural environments.

Built with corrugated galvanized steel sheet with ProMag coating or green pre-lacquered, these structures are robust, durable, and easy to install anywhere.

Available in five different widths, with a modular length of 1.14 meters per module, these shelters can be adapted to various needs and spaces.

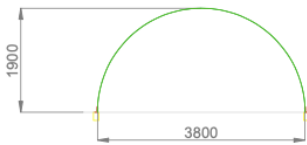

In addition to their functionality and durability, our shelters represent an affordable option for any agricultural budget.

## OPTIONS

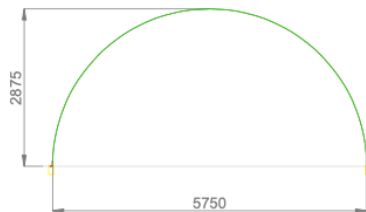

Five different widths, with a modular length of 1.14 meters per module.

\*Please consult our technical office for other dimensions.

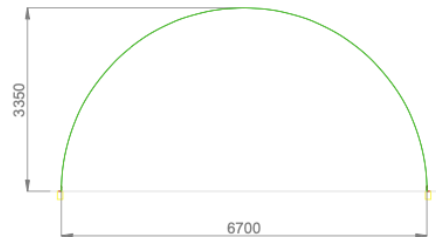

Height 1.9 meter  
Width 3.8 meter  
Modules 1.144 meter

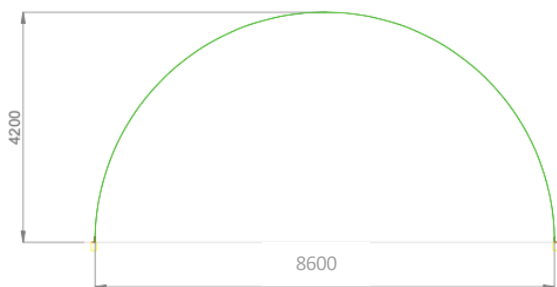

Height 2.875 meter  
Width 5.75 meter  
Modules 1.144 meter

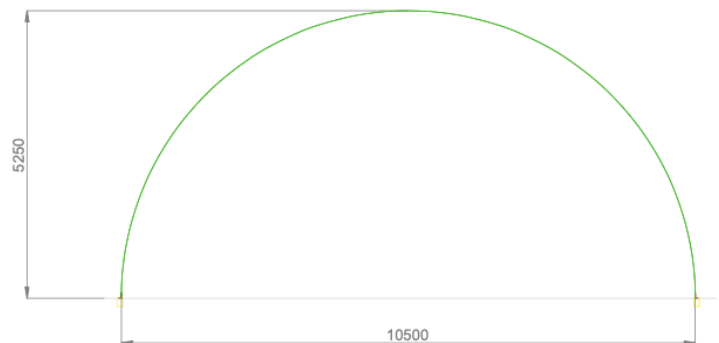

Height 3.35 meter  
Width 6.70 meter  
Modules 1.144 meter

Height 4.20 meter  
Width 8.60 meter  
Modules 1.144 meter

Height 5.25 meter  
Width 10.5 meter  
Modules 1.144 meter

## TECHNICAL DATA

MODEL	HEIGHT (meters)	WIDTH (meters)
3.80	1.90	3.80
5.75	2.87	5.75
6.70	3.35	6.70
8.60	4.20	8.60
10.50	5.25	10.50
